*Mihai Gui was born in 1989, in Cluj-Napoca, Romania and graduated in 2016 with an MA from AKV St.Joost in Breda, The Netherlands. He is a recipient of the Mondriaan Fonds Jong Talent stipend in 2017. Within his own artistic practice, he focuses on questioning the established value of the creative field in contemporary society and asking “WHAT can it DO?” and “WHY must it DO?” With these questions in mind, Mihai likes to engage multiple lines of research on particular subjects through smaller projects, and then use the knowledge gained from these to periodically research into bigger, more encompassing endeavors. He is currently either working on a personal project, or on a commission, or learning how to do something new and exciting, or all of the above, or maybe just wasting time.*
